

Crane lighting with the DeltaLUXX for a well-lit operations centre

More safety for employees

Customer/installation engineer:	Implenia AG
Requirement:	Crane lighting
Solution:	DeltaLUXX 2 200
Article:	800294
Quantity:	4
Areas of application:	Operations centre / container loading station

Starting situation

Loading trucks early in the morning at the Implenia operations centre in Oberentfelden was difficult without additional illumination. Two DeltaLUXX LED spotlights have now been installed on each of the two cranes. The additional light ensures smoother operations and also contributes to the safety of employees.

Customer benefits

- various system power ratings and beam angles available
- high reliability and long service life
- very attractive price-performance ratio
- easy to access for maintenance
- dirt-repellent PTFE surface coating
