

## Hall and workplace illumination with GIFAS luminaires

Well-lit work areas

<b>Customer/installation engineer:</b>	Implenia AG
<b>Requirement:</b>	Hall and workplace illumination
<b>Solution:</b>	DeltaLUXX/BetaLUXX
<b>Article:</b>	800055, 194914, 800167, 800155, 800161, 800294, 800157, 800156, 800169, 860480
<b>Quantity:</b>	11 AlphaLUXX, 109 DeltaLUXX, 30 BetaLUXX
<b>Areas of application:</b>	Workshop, joinery, locksmithery and warehouse

### Starting situation

The BetaLUXX ceiling luminaire is provided with a satinised cover for minimal glare and distributes the light extremely evenly. The high protection category IP66 and the robust design mean that the energy-saving luminaire is ideal for use in dusty and dirty areas.

The DeltaLUXX spotlight is used for extensive hall illumination. It is a low-maintenance luminaire with at least 80'000 operating hours thanks to the dirt-repellent PTFE surface coating and the latest LED technology.

### Customer benefits

- robust housing made of corrosion-resistant die-cast aluminium
- low heat generation thanks to the latest LED technology
- low energy consumption with high light output
- maintenance-free
- vibration-resistant
- various light dispersion characteristics available
